

## A practical approach

Every day, 7.6 billion people worldwide use products and services that require data and energy. This enormous size entails great responsibility.

Prysmian Group is therefore constantly looking for solutions to contribute to the sustainable development of people and communities, goods and services and enabling the transition to sustainable energy.

With this, we use a practical approach. We call it **SMARTER**, **LIGHTER** and **STRONGER**. These overarching themes are derived from the UN Sustainable Development Goals (SDGs), which are used as a frame of reference to define our goals.

In this overview, we would like to share the results achieved by Prysmian Netherlands in 2020.

## FOCUS 2021

### SMARTER

We will continue to engage our stakeholders to create new sustainable cable solutions that contribute to a more sustainable world. To accelerate sustainable product innovation, we are looking for customers who want to execute pilots with us to test new concepts. We want to walk the talk.

### LIGHTER

Sustainable investments are not the exception, but the rule. With every investment, the sustainability aspect is mapped out in order to come to the best decision. Active energy management aimed at further reducing consumption and CO<sub>2</sub> emissions in our factories and offices will be a focus area in this respect.

### STRONGER

We will continue the volunteering program in the towns and communities near our factories. We also want to be clear about the environmental impact of our products and activities. In addition, we look for a good balance between transparency and confidentiality.

Group

Linking  
the Future

## SMARTER

We will continue to engage our stakeholders to create new sustainable cable solutions and we will continue to accelerate sustainable product innovation. It is time to bring state-of-the-art sustainable products to the market. We want to walk the talk.

## LIGHTER

Sustainable investments are not the exception, but the rule. Active energy management aimed at reducing energy consumption and CO<sub>2</sub> emissions will be a focus area in this respect. That is why Prysmian Group is now committed to science based targets.

## STRONGER

We will continue to contribute to society by giving opportunities to students and people with distance to the labour market. We also want to be clear about the environmental impact of our products and activities. In addition, we look for a good balance between transparency and confidentiality.

Continued supply of **100% RECYCLABLE P-LASER** cables for the Dutch market, more than 2000 km since 2015.

In kind delivery of eco-building wire, eco-building cable and eco-utility cable to **ECOVILLAGE BOEKEL**.

Commercial supply of recycled PE-tubes for KPN network started, **SAVING 270 GRAM CO<sub>2</sub> PER METER**.

Introduction of low carbon aluminum for home-made solid conductors, **SAVING MORE THAN 50% CO<sub>2</sub>** compared to the global average.

Pilot **DELIVERY OF ECOSLIM FOR KPN NETWORK**, way smaller and lighter product for the same functionality.

**FULL INTEGRATION** of Lifecycle Design Strategy principles in product development.

Disclosure of circular product data for more than **20 PRODUCTS** for Dutch Utilities and for KPN.

Prysmian contributes to the **TENNET BAY REPLACEMENT** project in which circularity is of key importance.

**4% REDUCTION OF ENERGY CONSUMPTION** per ton of product (gas & electricity) compared to 2019.

Continued with **100% COVERAGE** of electric power consumption with Guarantees of Origin to compensate for CO<sub>2</sub> emissions.

**3% REDUCTION OF CO<sub>2</sub>** emissions (gas & electricity) compared to 2019.

**REDUCTION OF DIESEL** powered business cars by **45% COMPARED TO 2019**, and by doing so reducing emission of NO<sub>x</sub> and small dust particles.

Increased reuse of **WOODEN SHIPPING DRUMS** returned with graffiti by simply grinding it away.

Introduced the **DRAKA DRUM RETURN WEBPAGE** to encourage reuse.

**INVESTING IN THE FUTURE** of young professionals by enabling 3 traineeships within various disciplines in the organization. Guest lectures: 1.

Many employees participated in the Prysmian Group **VOLUNTEERS PROGRAM** during working hours.

Opening of Experience Center CONNECT, which is zero-emission and open for customers and for schools.

Promoting diversity within the organization through the introduction of the **"DIVERSITY AND INCLUSION"** program.

**SPONSORING CHARITIES**, such as the Roparun, Damloop, Mont Vertoux and the Alpentocht.

Participated in Fedet WG circularity.

Renumeration for management related to sustainability performance.

## SUSTAINABILITY INDEXES RESULTS

**2020** Rank: 87/100 (ELQ world) (included)  
**2019** Rank: 84/100 (ELQ world) (included)  
**2018** Rank: 79/100 (ELQ world)

**2020** Score: B (World)  
**2019** Score: B (World)  
**2018** Score: B (World)

**2020** Score: 76/100 (Platinum)  
**2019** Score: 73/100 (Gold)  
**2018** Score: N/A
